**Performance area options**

The AES Main Stage offers the versatility of changing the performance area sizes, starting from 15m up to 25m width. The stage floor height can also vary, starting from 1.5m and can be built higher if required, with the floor load capacity up to 500kg per square meter.

The roof clearance height can go up to 12.4m from stage floor (floor at 2.5m) and the roof rigging capacity can support up to 40,000kg equally distributed over the roof surface area. The PA wings have a rigging capacity up to 5,000kg per wing.

This stage can be built fast and with many possible options.
