A large, triangular stage structure with a brown, textured exterior and a complex metal truss interior. The truss is filled with various stage lights and equipment. The stage is situated on a rooftop deck overlooking the ocean. In the foreground, there is a swimming pool and a lounge area with white sofas and blue cushions. The sky is clear and blue. A large red triangle is overlaid on the left side of the image, containing the text 'AES PRISM STAGE'. Another red triangle is in the top right corner. The 'ALL EVENTS SERVICES' logo is in the bottom right corner.

SERVICES

# PRISM STAGE

In May 2022, All Events Services introduced a new stage roof to the industry, the Prism Stage.

The custom stage roof has been engineered using modular aluminum beams, which offer unrivalled strength capability and are compatible with tube and fittings and/or modular system scaffolds.

The Prism stage has a unique pyramid shape, and the modular design allows for multiple height and depth configurations. The roof can be left uncovered for a raw truss look or can be covered with stretched fabric/vinyl that weather protects the stage.

# DJ STAGE ROOF

PERFORMANCE AREA  
**10m (W) x 6m (L)**

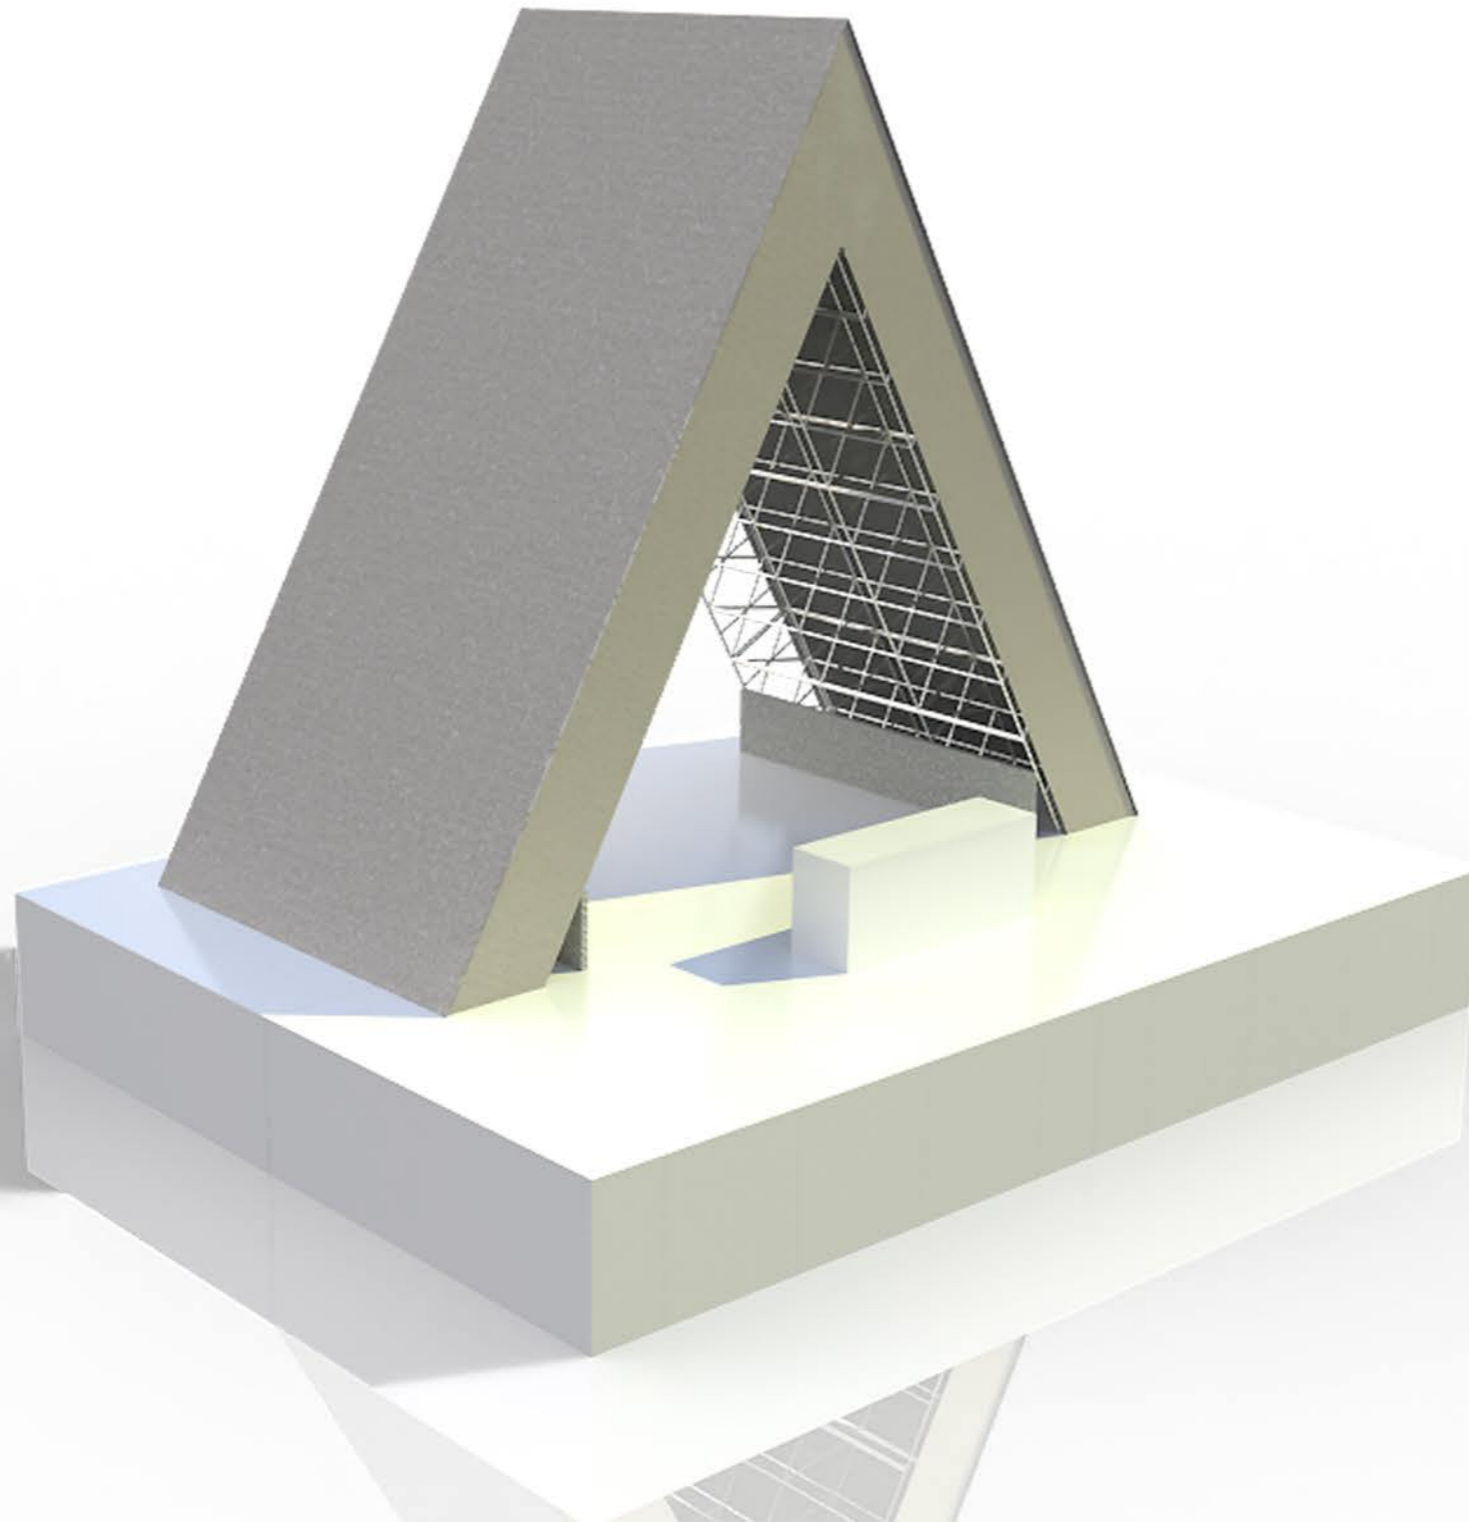

ROOF CLEARANCE (APEX)  
**12m**

STAGE HEIGHT  
**2M**

ROOF COVERING  
**FABRIC NETTING**  
(STRETCHED FABRIC / PVC OPTIONS  
AVAILABLE)

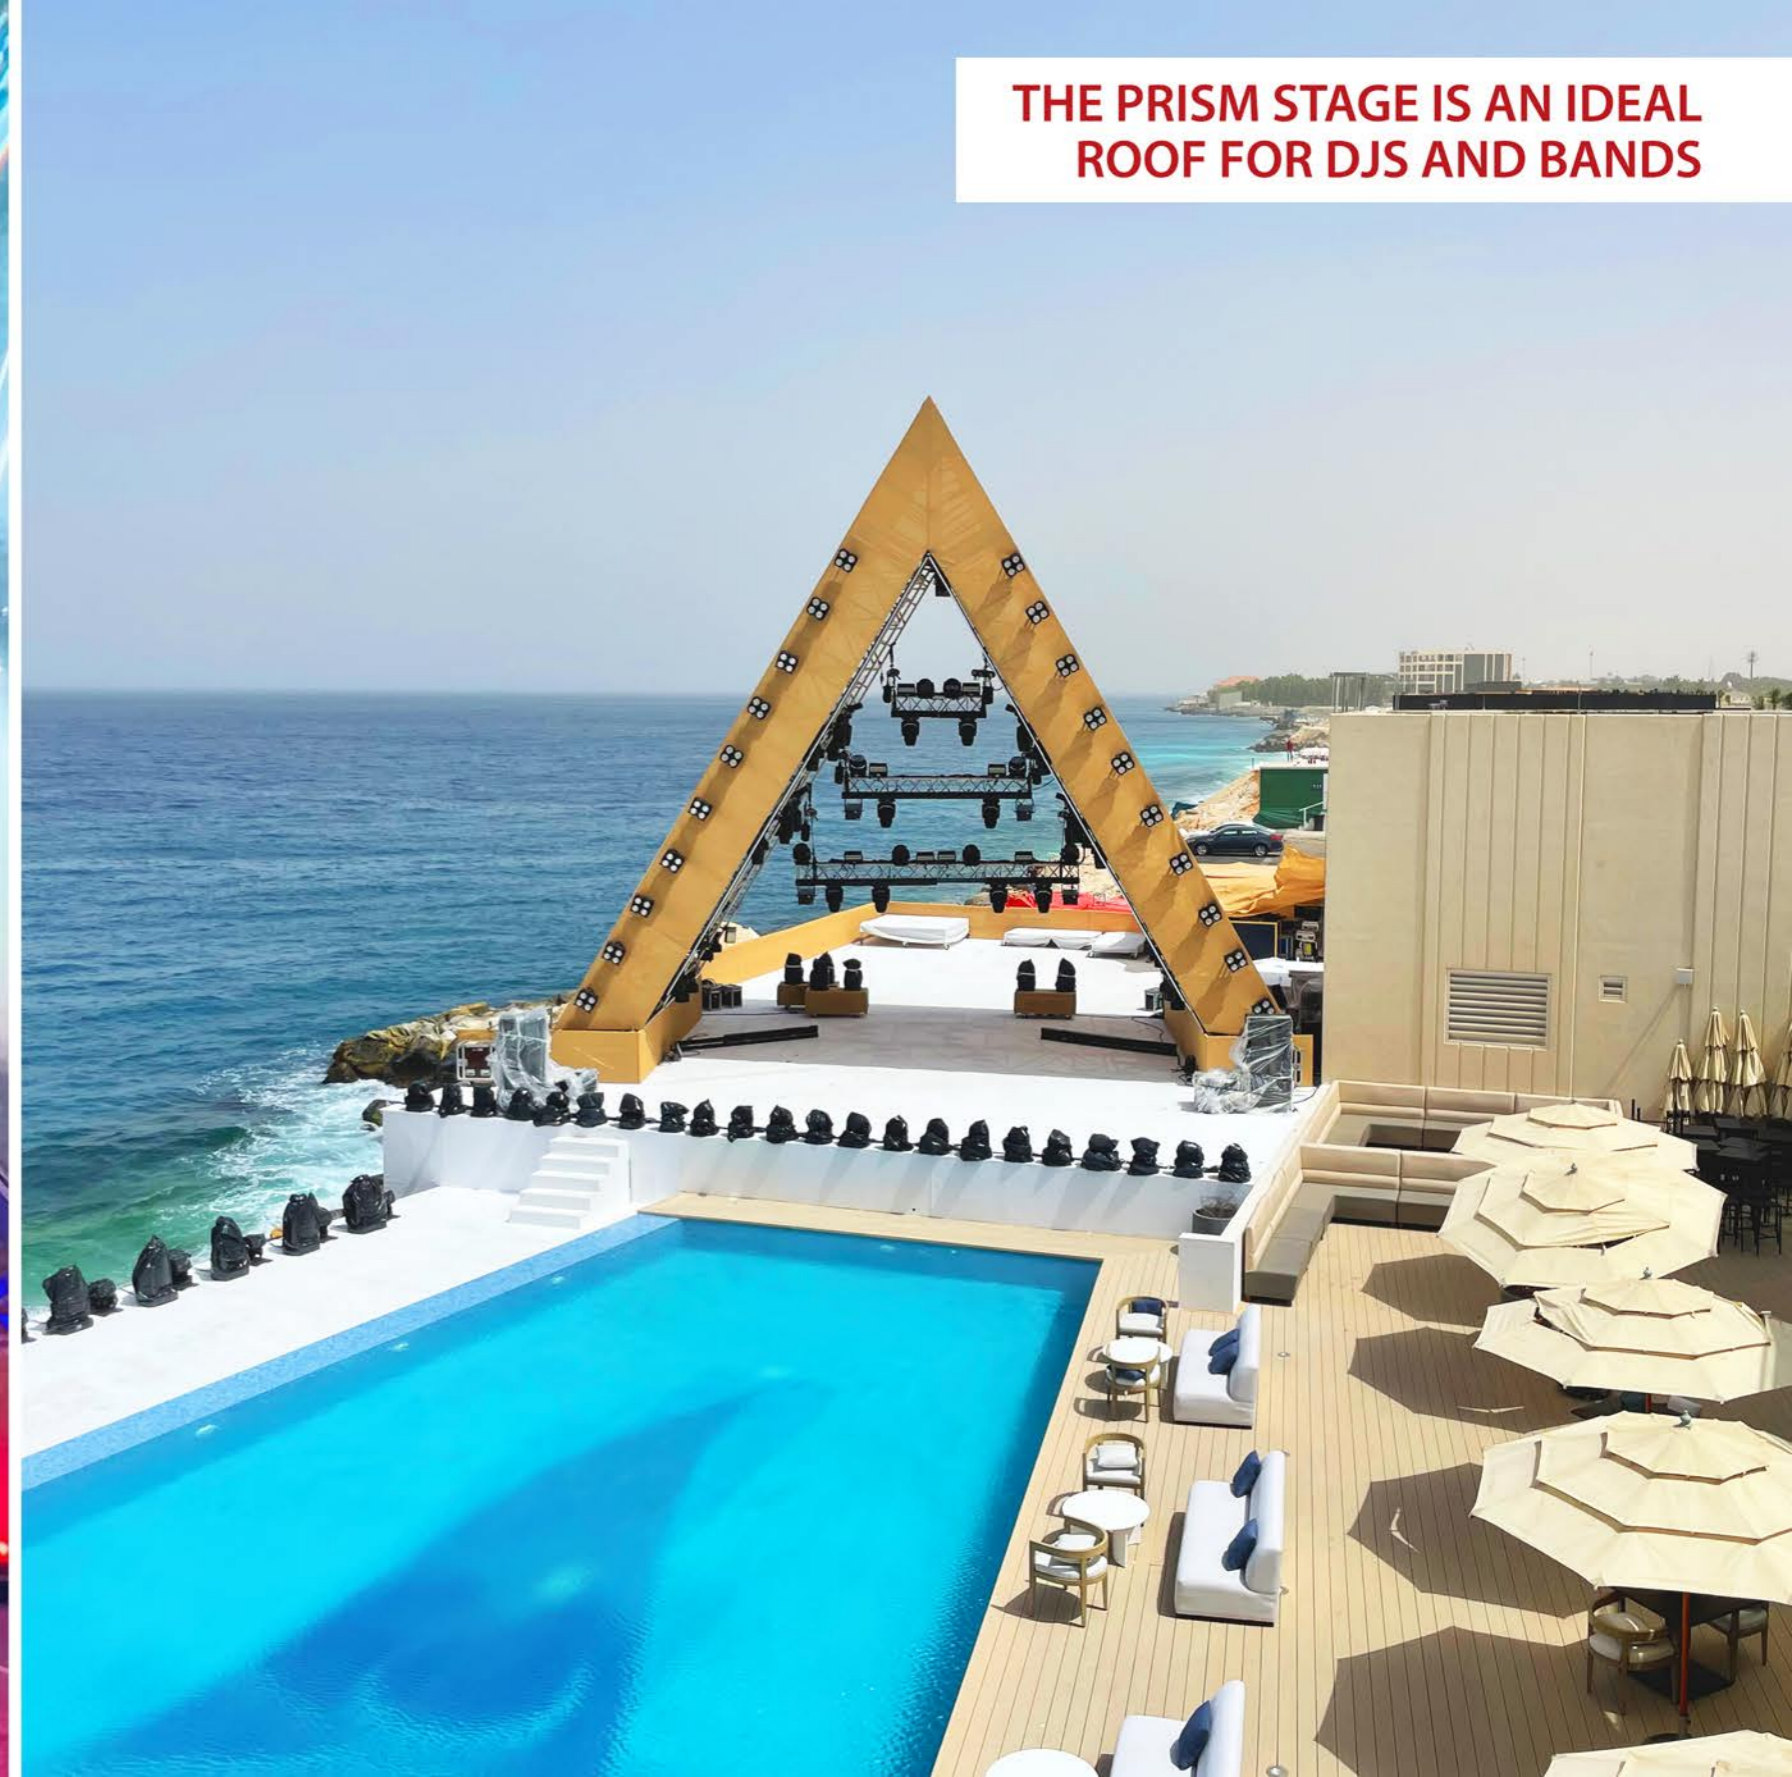

**Modular beam system**

Allowing multiple span, and height configurations.

THE PRISM STAGE IS AN IDEAL  
ROOF FOR DJs AND BANDS
