ALL
EVENTS
SERVICES

All Events Services supply grandstand seating to a large variety of events. From a small school sports day grandstand of 200 PAX, through to a 15,000 seated arena for sports and music festivals.

AES use modular tiered seating systems that have been designed and engineered to be installed quickly (up to 1,000 seats per day), safely and offer unobstructed views for spectators. All of the AES grandstands have been designed for global use, meeting national and international code, including FIFA and IOC requirements.

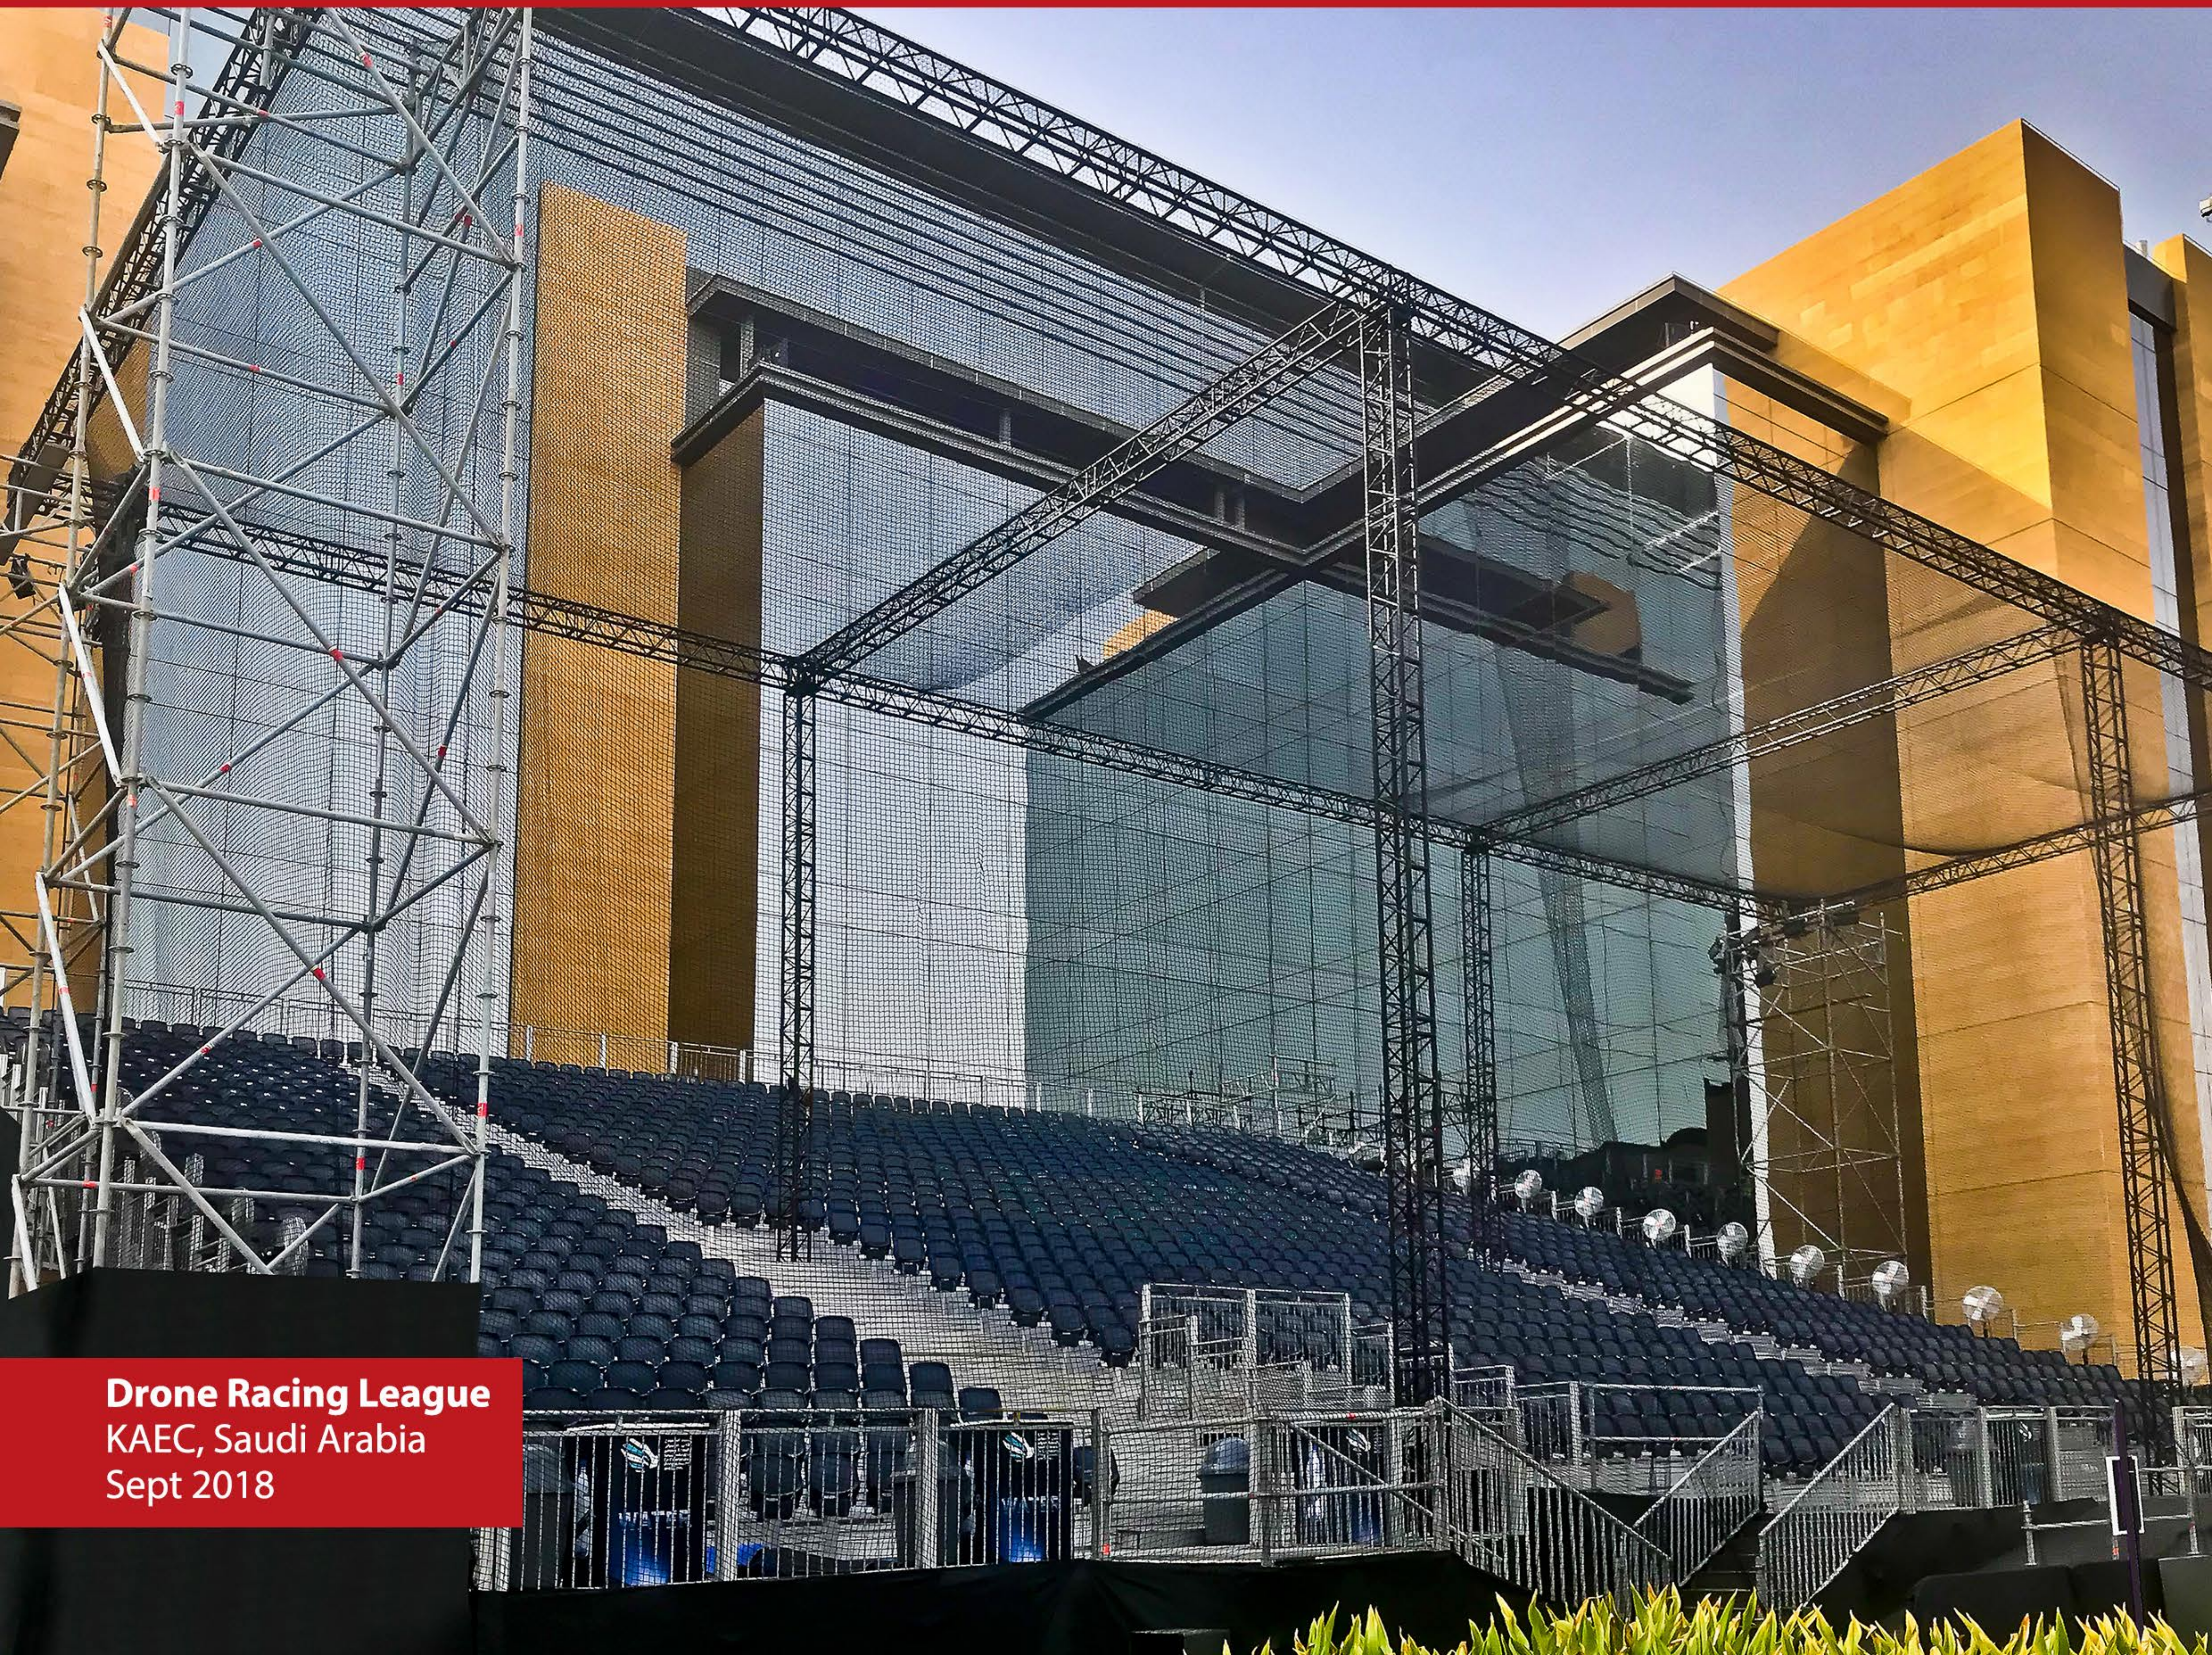

500 PAX Grandstand
25m x 14m @ 7m (h)
Elton John, Abu Dhabi

100 PAX Grandstand
15m x 6m x 5m (h)
FINA High Dive, Abu Dhabi

AES grandstand seating is a reconfigurable system design that allows venues to maximise unused space. Our specialist team calculate and design grandstands to ensure the maximum number of seats will fit in to the dimensions available. Whilst offering wider access and egress than standard seating systems for higher levels of safety and comfort.

Our seat systems are stable, durable, ergonomically considered and have the look & feel of a permanent venue. With no permanent construction required, the AES team can install the seats on terrains such as concrete, grass, sand and AES can even install them on the water!

Drone Racing League
KAEC, Saudi Arabia
Sept 2018

700 PAX Grandstand
18m x 10m @ 6m (h)
Saudi Cup 2020, Riyadh

2,000 PAX Grandstand
70m x 14m x 9m (h)
Media City Amphitheatre, Dubai

500 PAX Grandstand with Truss Roof
20m x 20m @ 10m (h)
Robotics World Cup 2017, Abu Dhabi

AES Grandstands offer multiple configurations of seat setup, allowing venues to maximise on unused space.
